
Human Food Products

.Based on its promised position in the agricultural world market, Wecia Argentina S.A.Â alsoÂ tradesÂ in products suitable for human consumption. World marketsÂ at present are in highÂ demand of protein products. Through the modernization ofÂ its manufacturing plants, expanding productivity, andÂ incorporating modern high technology, many companies in Argentina are adapting to the currentÂ situation facing global marketsÂ today.

Wecia Argentina S.A. aims to work closely with its customersÂ by developing new products and systems to meet specific nutritional, functional, and logistical requirements.

Circumstances and international market requirements are subject to continuous change.Â Wecia Argentina SA is well-prepared to face these challengesÂ by advising our manufacturers of new products and technology in order to satisfy our client's needs and requirements through ensuring maximum quality, hygiene, as well as the safe shipping of freight.
